

# HIKVISION/KOBI PLAYBACK AND EXPORT

## Playback

1. Right click anywhere on screen
2. Select 'Menu'
3. Select username and enter password
4. Select 'Playback'
5. Select camera/cameras you would like to view in the sidebar down the right hand side
6. Select date of viewing from the calendar under the camera list. Days highlighted in blue have footage available for selected cameras.
7. Click the play button at the bottom of the screen.
8. Click anywhere on timeline to skip to desired time.
9. Right click at any time to exit back to live view.

## Export

1. Right click anywhere on the screen
2. Select 'Menu'
3. Select username and enter password
4. Select 'Export'
5. Select which cameras you would like to export
6. Select start time and date and end time and date that you would like to export
7. Connect USB stick or hard drive to the NVR
8. Click 'Quick Export'
9. USB will open automatically. Browse to desired location to save the footage. You may also create a new folder to store the footage with the 'New Folder' button
10. Click 'Export'
11. Once export is complete, you can right click to get back to live view

## Viewing Exported Video

1. Connect USB stick or hard drive to PC
2. Browse to folder on USB device where footage was exported to
3. Run the file 'player.exe'
4. Click 'File' then 'Open' and browse to footage on the USB device
5. Open the desired video file
